## DAVISS SCHOOLS

The Observer Takes a Trip With a Camera.

### AS BLEAK AS A CATTLE BARN

Schoolhouse For White Pupils a "Crying Shame" and Those For Colored Children Almost Beyond the Flight of Imagination.

Simply to show that these conditions, these same wretched school conditions, are common all over the state I went to Daviess county, in the western part of Kentucky. This is another of those old, rich communities that were luxurious and prosperous long before the civil war, and it is therefore able to build and equip comfortable schools for all of the children within its borders. But in what is known as the town of Daviess, where the town is named after the same time where corn, tobacco, hay and wheat are grown in perfection, I discovered a poor little school building that was almost ready to go to pieces. Its front looked as if the children had needed extra fuel or kindling during the cold weather for their old battered drum stove. I am glad to be able to say that

ALMOST READY TO GO TO PIECES.

a new building is soon to replace this one, and it is high time, for the county superintendent said:

"It's a shame, a crying shame. I know it and feel it all the time; so do any number of other superintendents all over the state. But what can we do when the general public simply looks over and over again, 'I want to see the school, but not my child'?"

We went inside the old shack, and the county superintendent asked me to look at the rough walls, the knife-hewn desks of a pattern long out of date. Then he said:

"What kind of work can you get out of 'em when it's so much worse than they are used to at home? Mighty rough, isn't it? But that isn't the real tough part of it. I came out here during a sudden cold snap last winter to see how they could heat the school. You'll notice they have a piece of an old stove in the middle of the room and there is no protector about it to distribute the heat. I made the child who was sitting next to the stove move his seat, and I placed a thermometer where he had been sitting, busy with his lessons. THE MERCURY RACED UP TO 110 DEGREES. I took the same thermometer and hung it against the far wall of the wind-shaken house. IT DROPPED SUDDENLY TO 40 DEGREES. No child could do real mental

BLEAK AS A CATTLE BARN.

work with this difference in temperature in the schoolroom, and there was grave danger for the children physically."

If the white schools in old Kentucky are had the negro schools in many localities are almost beyond the flight of imagination. At a small village in this county of Daviess I ran across a very poor one, not any worse than others I had seen, but it was rather peculiar in its style of architecture. The windows were broken, the door unlocked and partly ajar, the front steps entirely gone, and the fence that had once separated the building from the roadway had disappeared except for some lonely pieces of posts. On pushing open the loose door I saw a bleak interior, with trash covering a badly warped floor. The room contained a rusty stove, overflowing ashes on to the floor, and two rickety benches made of unpressed lumber. The walls of the room were made of unpressed sliding nailed to studding and striped. There had never been any inner wall of plaster or ceiling to keep out the cold. IT WAS AS BLEAK AS A CATTLE BARN. Is it any wonder that literacy stalks a meaning figure about the old state of "the dark and bloody ground?"

To assist in the strong campaign necessary for the development of the educational movement nations bearing the inscription "My 8 for improvement Kentucky schools" are to be sold by the educational committee in Louisville.

## CLEAN SKIN OF MUCH VALUE

If Pores Are Kept Open Cow Is More Apt to Be Healthy—Use Comb and Brush Every Day.

Nature has given all living creatures a wonderful covering for the body. The skin is a most perfect and yet an exceedingly simple system of carrying off impurity and at the same time of providing the body with needed nourishment from the air, through the mysterious channels of absorption. Every cow's body is completely covered with this network of cells. If these are kept clean and open, so that they may do their work, the cow will be more apt to be healthy than if they become closed. This has been most strikingly proven by covering the bodies of animals with a sort of varnish which will not admit air, and the poor creatures soon die, their heart and lungs being fairly engorged with blood, just as would be the case if they were smothered.

Do we need anything more to prove that it stands us in hand to keep the bodies of our cattle clean by the use of a brush and comb not now and then, but every day, regularly? If this be not done, the pores of the skin get closed with the dust which is always present in our stables, especially at this time of the year, when we are feeding hay and other food that is apt to fill the air with flying particles. At once the cow begins to suffer. She cannot digest her food as she would otherwise, and she requires more food and richer food to maintain life in a good degree.

## POINTS IN CARING FOR MILK

Liquid Placed in a Clean Bottle Is Practically Free From Outside Contamination.

The nine rules given below will prove of considerable value to any dairyman:

1. Bottle milk is practically free from outside contamination and is the preferable form for purchasing it.
2. Can milk is liable to contamination from dust, from heat, and from strong-smelling substances in the refrigerator.
3. The top and outside of the bottle should be rinsed off with warm water

Simple Method of Cooling.

before being opened, as the milkman usually carries the bottles by the top or neck, and more or less dirt and bacteria are certain to be transferred to the outside of the bottles.

4. Place the milk at once in a refrigerator, in cold water or in a cellar. Keep the covers on the bottles as it prevents material falling in, and also prevents absorption of odors.

5. Wash and scald the bottle as soon as empty.

6. Clean vessels only should be used for holding milk sold by measure. These should have tight-fitting covers.

7. Never mix fresh and stale milk, as all becomes tainted or sour in a short time.

8. Milk slightly sour can be sweetened by the addition of a small amount of lime water. Pasteurization will add to its keeping quality. This latter is not good policy, but is a remedy for a common evil.

9. Do not buy milk because it is cheap, for usually it is the dearest in the end.

## DAIRY NOTES

An old stagnant pond is no place for a cow to stack her thirst.

Cows differ somewhat in the amount of roughage they will take.

Every dairy farmer should organize a cow-testing association of his own.

A "boarder" in the dairy herd is a sign of an owner who is satisfied with life as it is.

The mangel is excellent for stock feed, being greatly relished by milk cows in winter.

When butter refuses to "gather" the cream may be too sour or the temperature too low.

Provided your cow is a good one, the more she is fed along right lines the more she will give.

Stringy milk is brought on by a fermentation in the udder caused by a certain form of bacteria.

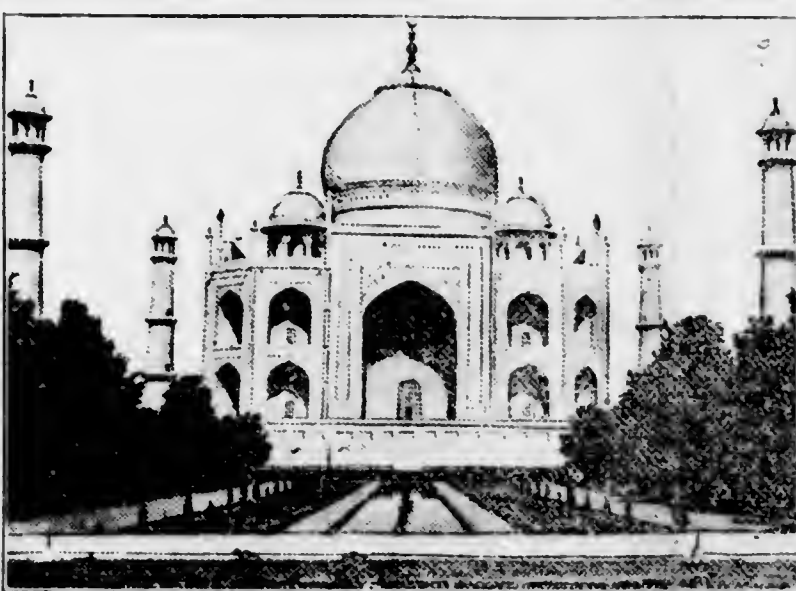

Milk left in the pail of the skim-milk calf means sour milk in a very short time these hot days.

To be sweet and clean it is desirable that the cow stable be white-washed at least twice a year.

The best cow is the one that can consume the largest amount of roughage and use it to the best advantage.

The number of acres required to feed a herd of twenty cows in full milk will depend largely upon the condition of the ground and the season.

## Most Beautiful Building

Admittedly the most beautiful building in the world, the Taj Mahal, one mile east of Agra, India, is visited yearly by many thousands of tourists. It is a white marble mausoleum built by Shah Jahan as a burial place for his favorite wife, who died in 1629. It is said to have occupied twenty-two years in building and its cost is variously stated at from \$9,000,000 to \$60,000,000. The building is octagonal, surmounted by a dome and flanked by four graceful minarets. In the central chamber, above a vault containing the bodies of the emperor and his wife, are two cenotaphs surrounded by a fine marble screen.

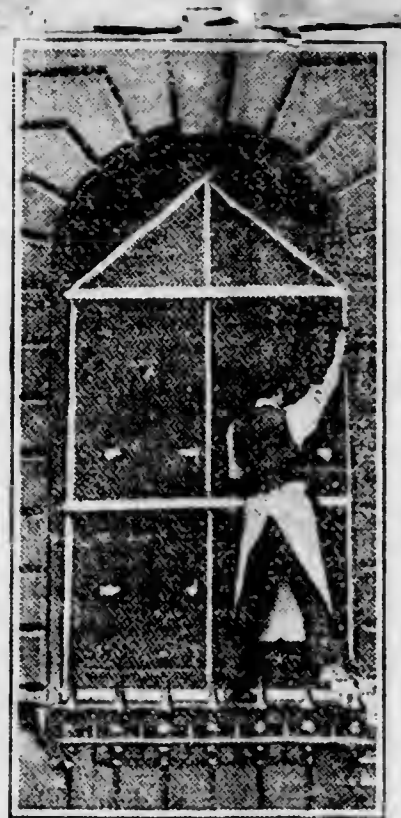

### IS HOLY GRAIL IN GENOA?

A large green cup, hexagonal in shape, which according to popular belief was used by Christ and his apostles at the Last Supper, is treasured in the Church of St. Lawrence, at Genoa, Italy. Its history goes much further back than that event, as it is claimed that it was a present from the Queen of Sheba to King Solomon. It has been in Genoa since 1101, where it was brought by a knight from the Holy Land after the First Crusade. For centuries it was not touched, although many of the faithful wished to adorn it with precious stones. This was due not only to piety but to a fear on the part of citizens that should it be broken, pilgrims would cease to visit Genoa. It was thought at one time that it was cut from an enormous emerald. Napoleon took it with him to Paris, persuaded of its high intrinsic worth. Scientists confirmed the suspicion that it was made of glass, and Genoa got it back at pretty much their own figure.

### SOME USES OF THE FIGTAIL

Although modern China has scoffed the pigtail on the altar of liberty, many celestialists still look upon the pigtail as an object of veneration. They find in it five advantages. It saves the ears; for, if two Chinese quarrel, they seize each other's pigtails, instead of their ears. It is a first aid to rescue; for if the falls into a river boatmen can fish him out by the pigtail with their boat hooks. It helps the police, who can tie two miscreants together by their pigtails, and thus save the necessity of handcuffs. It is a protection of respectable citizens; for, in a row, the police first arrest those who have been disgraced by losing their pigtails. Finally, it ensures peace in the house; for with it a husband may not be upbraided by his wife, while without it, she is at liberty to call him any name she pleases.

### TO STOP SUFFRAGE BRICKS

### PAWN THEIR FAMILY GRAVES

In times of financial difficulties the Loochoans, residents of the southwestern islands of Japan, sometimes pawn the graves of their relatives. They are always redeemed, however, as failure to do so means family disgrace. The turtleback shaped tombs, usually located on a hillside facing the water, are enshrouded affairs of stone and cement, and their cost and upkeep often bankrupt the family.

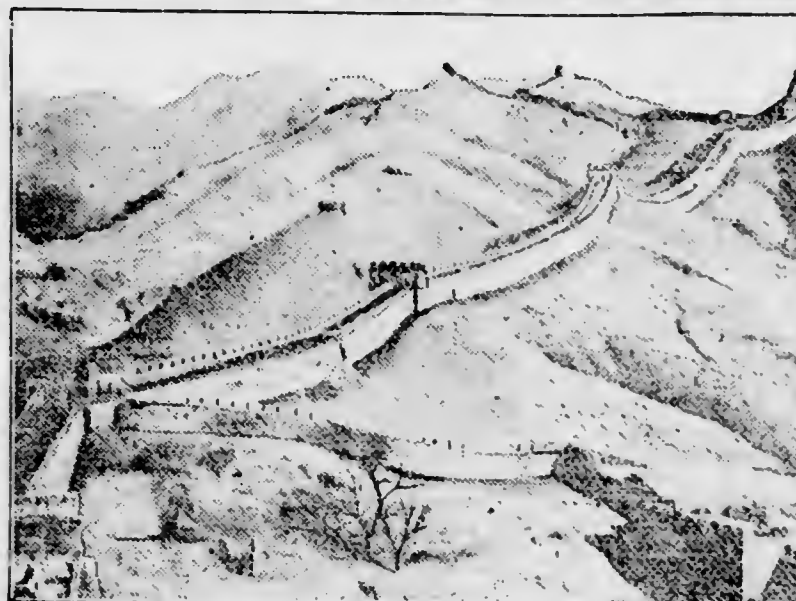

### CLOTH FROM SEAWEED FIBER

A method has been perfected for making cloth from the fiber of seaweed, which grows in the southern seas. The limp, straggling fiber is soft, pliable, strong, much like wool in its tendency to curl and twist, and easy to spin in its raw state. The finished fabric when put on the market abroad is 12 cents a yard, for a 52-inch width. It will be considerably higher in America.

### YEARS ARE ADDED TO LIFE

Within the last half century, an average of 12 years has been added to human life. The death rate has been reduced from 35 in each 1,000 inhabitants, to about 15. This reduction has been obtained through the control of infectious diseases. The saving thus made relates only to the period of life under 50 years. There is no knowledge regarding the organic diseases of advancing years.

## Great Wall of China

Recent investigations have revealed many new facts concerning the great Chinese wall, its construction and its purposes. This most gigantic defensive work in the world was once 1,250 miles long, extending between Mongolia and China proper from Suchau eastward to the gulf of Pecheli, with an extension northeastward to the Sunghai river. It is 25 feet high, 21 feet thick, and is faced with granite blocks, with towers at frequent intervals. Two wall dates from the latter part of the fourteenth century. After the accession of the Manchu dynasty in 1644 it was allowed to fall into decay except at a few points where it was maintained for customs purposes.

# OUT

CLEANING TIME

As flies fly before the broom, so do disease germs, effete and impure matter and foul humors in the blood fly before

## ELECTRIC BITTERS

They can't stand against this matchless broom of the blood. Out they go, along with the troubles they cause, such as pimples, boils, sores, eczema, salt-rheum, malaria, rheumatism and kidney disorders. It makes a clean sweep. It cures quickly and cures to stay. It gives glorious health and vigor to the weak, sickly and run-down.

## Blood Was Wrong

All women, who suffer from the aches and pains, due to female ailments, are urged to try Cardui, the reliable, scientific, tonic remedy for women. Cardui acts promptly, yet gently, and without bad effects, on the womanly system, relieving pain, building up strength, regulating the system, and tuning up the nerves. During the past half century, thousands of ladies have written to tell of the quick curative results they obtained from the use of this well known medicine.

## TAKE CARDUI The Women's Tonic

Mrs. Jane Callahan suffered from womanly troubles for nearly ten years. In a letter from Whiteville, N. C., she says: "I was not able to do my own housework. My stomach was weak, and my blood was wrong. I had back-ache, and I was very weak. I tried several doctors, but they did me no good. I tried Cardui for 3 or 4 months, and now I am in the best health I have ever been. I can never praise Cardui enough." It is the best tonic for women. Whether seriously sick, or simply weak, try Cardui.

Write to: Dr. J. C. Allen, Dr. J. C. Allen & Co., Chattanooga, Tenn., for Special Instructions and Free Trial Bottle. "Blood Was Wrong" can be had for 10c.

### Local Mention.

Next Monday is county court day.

There have been a few wagers laid here on the national election.

Not too early to engage that Thanksgiving turkey.

Just twelve days now until election. Yes, we are glad, too.

Accounts for landlords, motels, etc. at this price.

Quite a number of cherry trees are in bloom over the county, but there is little outlook for a second crop of fruit.

Mr. John Martin, who has been confined to his home for some weeks from injuries to his spine, is able to be out, and his speedy recovery is expected.

No matter what you want in sewing machine supplies you can get it from Roark.

Mr. and Mrs. E. A. Taylor have a fine ten-pound boy, their first-born arriving Tuesday night.

Best one ever made—the Kirsch curtain rods; Roark has a large line.

Mrs. Sarah T. Hall and Miss Lullie Hall are spending some days here, visiting friends.

There will be a large crowd here next Monday, county court and political rallies combining to bring Muhlenbergers here in large numbers.

See Coombs & Co. before you sell your beef hides. 027

We have had several delightful rains during the past week, and there is not likely to be further dry spells of much duration.

Mr. Clair DeWitt left the first of the week for Logansport, Ind., where he expects to spend the winter studying the violin.

"Bob White" is without doubt the best flour on earth.

Miss Catherine Vize, who has been here some months, stenographer for the Greenville Coal Co. left the first of the week for Middlesboro, where she has accepted a position. During her stay here she made many friends.

When you get "Quail" meal you get the best that is to be had.

Persimmons and haws are ripening in the forests and fields, and the frisky possum is taking on fat against the day of his proud immolation amid a fringe of sugary yams. All of which is to remind us that French chefs are not everything.

Mr. Chas. Williamson, Vine Grove, was here this week on a visit to his sister, Mrs. R. E. Jarvis.

See the Daring baby sulky at Roark's, different and better than others.

While the city needs the money it is not an act of patriotism for an individual to turn his stock out so that he may be fined, just to give the old town a little ready cash.

Mr. John Summers, of Sulphur, Okla., was here the first of the week on a short visit to relatives and friends.

Mrs. C. B. Summers was here from Earles last Monday, visiting relatives. Mr. Mrs. Summers will leave for Sulphur, Okla., the latter part of the week, where they will reside for a year.

Telephone No 5 and your laundry will be called for and delivered.

A legless man, driving four Texas billy goats to a wagon attracted much attention here Sunday afternoon. He is traveling all over the country, and maintains himself by selling postcards with a picture of the outfit.

Vivian, the 13 year old daughter of Mr. R. P. Martin, died at the home near Nelo Monday, after a prolonged illness from consumption, from which her mother died a few weeks ago. She was a bright, attractive girl, and popular among a wide circle. Interment was in the graveyard at Green's Chapel Tuesday afternoon.

### To The Public.

We desire to announce to the public that our new mill is now in full operation, and we will at all times have on hand the very finest quality of flour, meal and feed. We are very anxious to do custom grinding for our friends, and can give them the very best flour and wheat that is to be had anywhere, in exchange for their corn and wheat. HOME MILLING CO. (INC)

Makers of ready-to-wear clothing, who have been getting severe jolts for many years from the hundreds of tailored-to-order concerns, have been getting very busy themselves, and now there are many establishments selling all suits with two trousers; this is a great feature, and practically doubles the life of a suit.

New patterns in the Kirsch curtain rods received by Roark this week. Almost the full line in stock now.

Another man says that he is not for Teddy because he was what he was, or even because he is what he is, but for what he promises to be. Can you beat it?

Revival services are now being held all over the country, and reports from far and near are that great success is being had in the efforts at almost every point.

The car shortage in the country is reported to be more serious than at any time since October, 1907. We hope that this does not indicate another panic, as occurred along about that time.

The first ice of the season appeared yesterday morning. It was flimsy, and only the very early risers saw it.

Mrs. Mollie Landrum, of Orlando, Fla., has been here for several days on a visit to Mrs. C. E. Roark and other relatives.

### Residence Burned Yesterday Morning.

A residence on Trowlidge street belonging to C. S. Carl and occupied by G. W. Jolly was destroyed by fire at 2 o'clock yesterday morning, a defective line causing the blaze. The house was practically destroyed when the alarm was given, but Mr. Jolly and the neighbors succeeded in saving a considerable part of his household goods. There was insurance of \$800 on the house and \$500 on the contents, which fairly covers the loss.

Rev. K. H. Tandy has been selected by the ministers' association to preach the annual Thanksgiving sermon; the church in which the service will be held will be announced later.

Go to Sam R. Martin's tonsorial parlor and bath house for an easy, close shave or an up to date hair cut; near the Max Weir corner; leading barber shop in town, assisted by two first-class workmen.

"A Musical Dream," given at the Cumberland Presbyterian church by local talent last Thursday night, was an enjoyable affair that delighted the large audience attending. All the features were good, and reflected credit upon Miss Lelia Ivason DeWitt, who conducted the rehearsals and had supervision of the production. Quite a nice sum was realized for the church.

Mr. J. A. Gilman has joined Mr. F. A. Ivins in the agency for the Ford Motor Co., and will assist in selling the fifty cars they will place in the county during the season—we hope.

The 57th annual session of the Kentucky State Medical Association will convene in Dr. Powell's First Christian church, in Louisville, October 29, 30, 31. There will be many notable speakers, and papers and discussions of much interest and importance, while the attendance promises to eclipse any preceding meeting. Louisville is making extensive preparations to entertain its distinguished delegates and visitors, and the physicians and surgeons of the State have a pleasant and profitable visit in view.

Miss Lena Arnold has a full supply of bulbs as follows: Hyacinths for pot culture, 10c. each; colors: light and dark blue, yellow, white, pink, bright scarlet. Hyacinths for bedding, 75c. per dozen, in same colors. Chinese lilies 15c. each; white Narcissus, 4c. per bulb or 35c. per dozen.

The grading of the examination papers for rural carrier has been done, and all applicants know their standing. Most of the work ranked high; the appointment has not been made yet, but this will come soon, it is thought.

Lewis, son of Mr. Carroll Oates, died Monday at the home near Yeargin's Chapel, after a prolonged illness which was thought to have been hookworm. He was a bright and popular young man, and had many friends who mourn his loss.

An excursion train on I. C. road, carrying about 200 persons from Hopkinsville to Paducah to a W. O. W. celebration, was wrecked by a broken rail a few miles after leaving Hopkinsville, and about 60 persons were injured, many severely but none fatally.

### Death of Mrs. W. A. Armstrong

Annie Prineett, wife of Capt. W. A. Armstrong, was found dead in bed at their home yesterday morning. She was in her 72nd year, and for some years had been a sufferer from heart trouble, which was the cause of her death. She was a Miss Oates, daughter of B. E. Oates, and was a member of a prominent family of the county pioneers in its development. Her body will be laid to rest in the graveyard at Unity church at 2 o'clock today, and a large crowd will be in attendance.

Messrs. Irvin & Gilman, agents for the Ford Motor Co., are proving aggressive representatives of this popular line of cars, and it is hoped they may place many of these excellent vehicles in service over the county.

Take your beef hides to J. E. Coombs & Co. and get the cash.

### DR. ELMER T. HALL DIES

In Atlanta Last Thursday and the Body Was Brought Here for Burial Last Sunday.

Dr. Elmer Trowlidge Hall was born at Lima, N. V., Sept. 10, 1872 and died at Atlanta, Ga., Oct. 17, 1911. He came with his parents, the Rev. and Mrs. E. W. Hall to Greenville, Ky. in 1885 where his father was President of the College. He graduated there with the degree of A. B. in 1891 and taught in that College for several years. Afterward he spent two years at Vanderbilt University and was admitted to the Bar in Greenville, Ky. in 1896. When his mother removed to Kirksville, Mo., he accompanied her, and later took up the study of Osteopathy at that place, graduating in 1899. He practiced six years in Watertown, N. Y., and the last seven years in Atlanta, Ga. He was married in 1898 to Miss Laura Brewington, of Kirksville, Mo., by whom he is survived. He leaves a son, Edwin Brewington Hall, his mother, Mrs. Sarah T. Hall, of Kirksville, Mo., and his sister Miss Lullie T. Hall, of Atlanta, Ga. He was converted in childhood and joined the Methodist church, of which he remained a member through his life. He was a member of the S. A. E. fraternity at Vanderbilt, and of the Masonic fraternity. The cause of death was an abscess of the bowel, which an operation failed to relieve. The body was brought here, arriving Sunday and was carried to the home of Mr. and Mrs. T. M. Martin. Funeral services were held at the Methodist church 2 o'clock Sunday afternoon, the pastor, Rev. G. P. Dillon, delivering an appropriate and feeling address. The Masons then took charge of the services, escorting the body to the cemetery, the pallbearers being Dr. C. B. Martin, Geo. Eaves, Chas. W. Roark, J. H. Pittman, Dr. E. R. Vostan, M. L. Boggess, fellow Masons and former schoolmates. The impressive rites of the order were given, in the presence of a vast throng. Floral offerings from friends here and elsewhere were numerous and beautiful.

Dr. Elmer T. Hall was a devoted man all our people were proud. He was a man of much force of character, and possessed the happy faculty of making and holding friends. His death has caused sincere sorrow among a wide circle.

### Honor Roll Methodist Sunday School.

Class No. 2—Mrs. Richardson: Honor Roll—Louise Williams, William Long, Morrison Williamson, Robert Williamson, Paul Wilkinson. Honorable Mention—Carol Roark Elizabeth Roark, Emma Ruth Pittman, Susie May Mann, Gladys Shaver, Virginia Belcher.

Class of Mr. John B. Ferguson: Charlie Lovell, Ray Morgan.

Primary Department: Honor Roll—James Dennis Baker, C. W. Taylor, Supt.

### Voters of Muhlenberg County.

I was in your county four days and tried to see all the voters possible in the limited time I had. I made six speeches in the county and I make this statement that you may know I am making an active canvass and will defeat R. V. Thomas, Jr., for Congress in this district if the voters in Muhlenberg County will go to the polls and vote for me regardless of whom they vote for in the Presidential race. Put your stencil opposite my name if you are a Roosevelt man for it you fail to do this you are adding one-half vote to Thomas.

I stand for policies which insure a continuation of prosperity and protection to the farmer and wage earner while Thomas stands upon a platform which advocates the same tariff legislation that produced want and misery throughout this county under the Cleveland administration. I am going to win if this county will do her duty. If you really want to defeat Mr. Thomas now is your opportunity.

Yours truly, THOMAS B. DIXON.

Miss Lena Arnold asks the patronage of the public, and guarantees that satisfactory work will be done in her clothes cleaning, pressing and repairing shop.

### A Square Deal

A SQUARE DEAL.

Works both ways: it benefits the buyer as well as the seller. We are firm believers in the Square Deal—as much for our own benefit as for yours—for we know if you get the Square Deal habit you will buy from a Square Deal house. We give a square deal always—and we are as glad to give it as you are to get it.

### Something to Think About.

Many words won't fill a bushel, but a Fire, Lightning, or Tornado policy with us will fill a want in human happiness that will otherwise remain unsatisfied.

W. D. Blackwell & Bro. General Insurance, Greenville, Ky. Rogers Bldg. Telephone, 163

### Death of Rufus W. Jernigan.

Mr. Rufus W. Jernigan, aged 44 years, one of the prominent farmer and citizens of his section, died at his home three miles northeast of town at 11 o'clock Tuesday morning. He was ill only a few days, and Sunday submitted to an operation for relief from an abscess of the bowels, but complications arose, and could not be controlled. Rev. Howard conducted a service at the home at 1 o'clock yesterday afternoon, and interment was made in Evergreen cemetery here. Deceased is survived by his wife and eight children, who have the sympathy of a wide circle of relatives and friends. His community has lost a valuable member.

### Killing Friday Morning.

John Christian instantly killed John Bradley about 6 o'clock last Friday morning. Both are colored, and were employed at the home of Mrs. Mary Baker, where the trouble occurred. Christian claims self-defense, declaring that Bradley attacked him with a knife, but was kept off by a barrel stove which Christian wielded. Christian claims that when Bradley saw he could not use the knife effectively that he ran for his revolver, when Christian secured his gun and fired. The shot took effect in Bradley's right side, and death resulted at once, almost, he running out of the kitchen, through the dining room and falling in the back hall. Mrs. Kate Martin and Mrs. Mary Baker ran down stairs from their bed rooms, and spoke to Bradley, but he only murmured a word or two and was dead. Christian came to town and surrendered, and was lodged in jail.

Bradley was a young man well liked, and had never been in any serious trouble. It is said that he and Christian had frequent quarrels, but had never come to blows. Christian was seriously injured many years ago, by being struck on the head by an engine on the I. C. railroad, and since then he has been mentally deficient, and while not generally quarrelsome, has shot two persons before this act, seriously injuring both. The examining trial was set for yesterday afternoon.

Bradley's body was buried in the west end cemetery Sunday afternoon, following a service at the A. M. E. Zion church, and was conducted under the rites of the K. of P. of which he was a member. There was a large attendance.

**PEE-GEE FLATKOATT**

The Sanitary, Durable, Flat Oil Finish

Pee-Gee Flatkoatt is rapidly superseding wall papers, kalsomines and lead-and-oil paints; which are unsanitary, unsatisfactory and more expensive.

Pee-Gee Flatkoatt gives tone, character and harmonious effect; and is the modern wall finish for private houses and public buildings. The plain directions on each can make it easy to apply with perfect success.

Peaslee-Gaulbert Co. Louisville, Ky.

Greenville Milling Co.

**ARROW and REMINGTON UMC NITRO CLUB**

**Steel Lined SHOT SHELLS**

Each and Every One a Speed Shell

The speed that breaks your targets nearer the trap. That's why Remington-UMC Steel Lined Shells have won 13 out of the 15 Handicaps held in the last three years.

The speed that gets that mile-a-minute "duck" with a shorter lead—that's why it takes over 50,000 dealers to handle the demand for Remington-UMC Steel Lined Shells.

The Shooting fraternity are speed wise. They know loose smokeless powder won't drive shot. They know that the drive depends on the compression.

The powder charge in Remington-UMC shells is gripped in steel. This lining is designed to give the exact compression necessary to send the lead to the mark quickest. It insures speed—the same speed in every shell.

The steel lining is moisture proof—no dampness can get through. Jar proof—no powder can get out. Waste proof—no energy is lost.

Shoot Remington-UMC Arrow and Nitro Club Steel Lined Shells. Expert factory loaded shells for Speed plus Pattern is any make of shotgun.

Remington Arms-Union Metallic Cartridge Co. 299 Broadway New York City
